TERMS OF THE DAILY.

On and after November 1st, the price of the Daily Heraid will be se fellows: To carriers, agents and news dealers per copy 3 85 one month .. And deliverable to city subscribers at 25 cents per week, or \$1 25 per month. If paid strictly in advance \$12 per annua will be charged, but if not paid in advance 25 cents per week will be invariably the price.

If pail letters, whather for publication or on business, must be addressed to "Hall & Hutchinson," Indianapolis,

THE ISDIANAPOLIS DAILY HERALD is sent by all the early morning Express Trains, and delivered to subscribers in adjacent towns about the same time it is distributed in the city of its publication. This enables readers at a distance from the Capital of Indiana to get the news of the day from six to twelve heurs before they can receive it through papers published elsewhere. The paper can be had of news-dealers and carriers at any of the railroad towns on the roads centering at Indianapolis.

FIRE Company holds by lease, and in fee, about twenty thousand acres of the most select coat lands in Western Indiana, bordering both sides of the Wabash river. Maps of these lands may be seen at the wm. Dale, No. 25 Park Place, N. Y. City, at the office of at Indianapolis.

Hon. J. R. Coffroth, Huntington, Indiana, and at the office of Roach & McDonald, Indianapolis. A reference to the report of the Hou. David Dale Owen, late State Geologist, will show that these tands are situate in the midst of the finest coal fields of the State, abounding also in salt, iron and other valuable mineral substances. Near the mouth of Coal Creek, where the Company has

large quantities of lands salt water has been discovered equal in quality to the Kanawha. This water was procured some 25 years ago by boring, soon after, the On-ondaga sait finding its way down the Wabash and Brie Canal, Mr. Thomas, the proprietor, finding himself un-able to compete with it, abandoned the manufacture. In his boring he encountered that which recently dis-closed facts prove to have been coal oil.

Those lands all lie in close proximity to the Wabash and Krie Canal, some of them upon its banks.

Mr. John McManomy, the business agent of the company, has returned from a tour of observation of the oil regions of Pennsylvania, convinced that the lands leased by the company, in Fountain and Parks counties, has, so far as the general formation of the country and the surface indications present themselves, a stong analogy to the oil and mineral substances as found on French Creek, Pennsylvania, where the greatest quantity and the most valuable o'll is found Mr. McManomy has purof the Monthly Turns, from with ell the fixtures necessary for sperstion, and is pro-Whatever Cause, and Always ment of the hidden freasure of the lands of the company All the indices of ceal off, found in focalities where is as been procured, are strongly marked in various lo calities of the lands of the Company, affording every hose afflicting complaints so peculiar to the sex, whethrational prospect of success. The company thinks it unrecessary to make any other reference to the character
the Doctors for many years, both in France and Amerwith unparalleled success in every case; and he is by the Company to be offered in the market at one-half its par value, being \$25 per share, for the purpose of alding the Company in a speedy development of the

ORGANIZED UNDER THE LAWS OF THE STATE

Capital Stock, -

Divided Into 10.000 Shares. Par Value \$50 each.

HARRISON DAILY, Provident. M. ROSENTRALL, Treasurer. J. W. THOMPSON, Secretary.

THE public are hereby notified that books are now open at the office of H. Baily, Indianapolis, and B. Rosenthall, Jeffersonville, Ind., for the sale of a limited number of shares. The proceeds of the sales of this stock to be devoted to the development of the off and mineral lands belonging to the Company, at and in the neighborhood of Henryville. The boring is now progressing under the supervision of an experienced sporator. The Company has three thousand acres of land. tor. The Company has three thousand acres of land, situated nineteen miles from Jeffersonville, near Monry-ville. The surface indications on these lands, together with the geological formations, are such as to justify the most sangulae expectations of finding abundant deposits of oil. Experienced oil men from the oil regions of Pennsylvania and elsewhere, have prospected this territory, and say that it compares favorably with the best oil regions in the east.

The general impression seems to be that the enterprise and capital invested in the development of oil will craptually settle upon this portion of the State as the most premising section within its limits.

in hand.

fittieth birthday" was read, and produced profound emotion hinder the great purposes for which the expedition went to Brazil. We have already referred to the vast collection of specimens, many of to the vast collection of specimens, many of them new to science. Agassiz had not been a fortaight in the country before he discovered CHAS. B. COTTON.

Collector of the Port of Louisville, Ky United States, namely, evidences that in some | COL. H. DENT. and moving plains had flowed over the present REV. D. P. HENDERSON, home of the most tropical nation in the world. In these palm-covered mountains around Rio de HARNEY, MUGHES & CO., Janeiro he found erratic boulders and deposits of glaciers as in Switzerland, Norway and Sweden. His last great opponent, Sir Roderick Murchison, has already acknowledged in public that Agassiz was right in his predictions and investigations of glaciers in Great Britain, and geolo- DAVIS, GREEN & CO., gists, both native and foreign now in Brazil, have recognized that Agassiz is correct in regard to HART the glaciers in the tropics, though they had failed. as well as St. Hillaire, Dr. Gardiner, and other naturalists, to observe these striking facts until the investigation of the Swiss glaciers pointed

out within the tropic of Capricorn unmistakable CAPT. 8 F. HILDRETH. evidences of the great snow-storm which once covered the globe. Numerous minor discoveries of great importance to scientific men have been made, but the C. M. METCALF, accounts of these will be published in time by Agassiz himself. They will give a clear idea of COL. JESSE BAYLES, the vast mineral riches and other resources of Brazil. Perhaps the most important fact, in a commercial point of view, is his confirmation of the existence in Brazil of coal of the true carboniferous era. Brazil has hitherto received all her coal, at great expense, from England; but a geologist, lound, on the northwestern border of Rio Grande de Sul, vast quantities of coal, which

the at the disposal of Professor by the Emperor. The Funeral of a Bec.

Uspt K, one of the shrewdest steamboat captains on the Obio, caught a Jeremy Diddler on board his boat one trip, and pinned him up in cate. good style. It seems the fellow laid a traverse he had paid, but had lost his ticket. Whom did you pay to? asked the clerk . Why, he identially by mail, and without observation, to any to get clear of paying his fare, and insisted that rather guessed it was the captain "Captain K part of the city or country,) and for sale by was summoned to the conference. "Oh, yes, STEWART & MORGAN, No. 18, East Washington recollect. Let me see-you gave me a \$20 bill?" Yes," said the Diddler, "I did " "And I gave street you your change in half dollars, didn't I? Yes," said the Diddler, "that's it-recollect it perfectly." Very well, says Captain K., 'I won't dispute your word for anything; but if you

Cure of Nervous Weakness, Early Decay, Diseases of the Urinary and Seminal Organs, and the whole train of disorders brought on by baneful and vicious habits. Great numbers have been already cured by this noble remedy.

Profound interest has been excited in scientific and popular circles in this country and in England by the expedition of Professor Agassiz to Brazil; but in consequence of his aversion to notoriety and of the severe labors in which the scientific corps under his direction has been engaged, no definite account of his movements, so important to science, has been received in this country. In conversation with Rev. J. C. Fletcher, who has just returned from South America. we have obtained some interesting particulars of the progress of the expedition, the publication of which, we hope, is no violation of privacy. On the first of April last Professor Agassiz and

and placing at his disposal every facility for ad | per box.

sition. It was not, however, in the scientic point of view alone that Agassiz' admiration was excited, but it was to find in the Emperor the

tors, who did not interrupt the important work

Many courtesies from foreigners as well as Brazilians were extended to Agassiz and his wife -the latter especially received marked and gratifying attentions. The Swiss residents of Rio de Janeiro, on the occasion of the Professor's fifty-ninth birthday, gave him a festival, which is described by Mr. Fletcher as having been most enthusiastic. The intertwined flags, shields of Switzerland and America, and the sympathetic speeches of the Swiss, showed that their sympathy had been with our Government during the war. Longfellow's poem "To Agassiz on his

fiftieth birthday" was read, and produced protound emotion

These personal attentions, however, did not hinder the great nurposes for which the great in the good effects of Dr.

We, the undersigned, have seen the good effects of Dr.

Jour Bull's Carnon Birmas in case of general debility and prestration of the system, and believe its general use would prevent disease and refleve much suffering.

and is worth double the price of these worthless English for Soldiers beary hunting case, accurate time keepera We also have a large variety of ton pir. 4 Swiss a few years ago Mr. Nathaniel Plant, an English has been pronounced by Agassiz, from the fos-

sils which the coal contains, to be of the most valuable quality, destined to add immensely to the richness of the country. The expedition in June and July divided into several parties, two of which are exploring the interior, while the one under the immediate su pervision of Professor Agassiz is now exploring the Amezon and its branches in a steamer placed

A correspondent of the Glasgow Herald transmits the following: "On Sunday morning last ! had the pleasure of witnessing an interesting ceremony, which I desire to record for the benefit of your readers; and if the Dr. Cumming, the Times' bee-master, happens to be one of them. IL OUR STOVES ARE OF THE LATEST AND I would recommend it to his notice. While walking with a friend in a garden near Falkirk. we observed two bees issuing from one of the hives, bearing betwixt them the body of a defunct comrade, with which they flew for a distance of ten yards. We followed them closely, and noticed the care with which they selected a convenient bole at the side of a gravel walk-the tendernoes with which they committed the body the Pills while in that condition, as the proprietor assumes head downwards, to the earth—and the solici no responsibility after the above admountion, although their mildness would prevent any mischlof to health. tude with which they afterwards pushed against two little stones, doubtless in memoriam-Their task being ended, they paused for a mo-
